

Field Application #3: Intl Long Distance

I-Gate 4000 bandwidth optimization enables:

- Lower CAPX and OPEX:
 - Best-in-class compression and high reliability
 - Compressed voice and data consolidation
 - Broad support for PSTN protocols: Signaling, MTDF, Fax, Modems, and more
- Increased Revenue: Unmatched voice quality enabling more and longer calls

I-Gate 4000 bandwidth optimization delivers lower OPEX and CAPX while increasing revenue
